150120528 - Samet CAN

150120016 - Kadir Berk YAĞAR

150119673 - Ela Nur ALP

150119008 - Murat ÖZCAN

150119011 - Berkkan RENÇBER

150119001 - Hakan UZ

150119003 - Ali KOŞAR

## Aim & Properties

Our project is a sharing platform with certain features created to protect environmental ideas such as climate change, deforestation and pollution. At the same time to provide up-to-date information on these issues. Our aim here is to inform more people correctly and to gather people who want to contribute to this idea.

Our site will have Administrators, Content Producers, Members and Visitors. With the authorization to be made, there will be restrictions in the production and comment section. Visitors are not permitted to leave comments or share their opinions on the subject matter, but everyone is welcome to read the subjects. Members will have the option to respond. Administrators select Content Producers to develop and publish fresh subjects. There will be a News Feed and Trendings Feed in the Home page with corresponding functionality.
